no-turn mattress

90kg weight

DESCRIPTION : Matrix Continuous Interlocking Coil	
FACT	BENEFIT
<i>No turn quality mattress.</i>	Firm, reconstituted foam, high density foam and fibre make up the sleep surface area and provide a luxurious feel.
Tempered sleep support system.	The Continuous Interlocking Coil system provides the mattress with stable spinal support giving it a gently firm feel and aids in offering a perfect sleeping posture all night.
<i>Interlocking coils with dual directional response.</i>	The sturdy <i>Interlocking Coils</i> correct your sleeping posture while you sleep as well as absorb motion, ensuring minimal to zero motion transfer to your sleeping partner.
<i>Increased pressure distribution for max comfort.</i>	The more pressure you apply to the Parallel Infinite Coil system the greater the upward response is, reducing pressure points.
<i>No sagging edges - Perimeter edge support.</i>	The border surrounding this mattress is made from a tough steel wire that ensure the mattress does not sag at the edges, reducing the body's tendency to roll.
<i>Luxurious knitted ticking</i>	The luxuriously soft cover ensures a plush, comfortable and supportive feel that acts as an effective moisture guard.
<i>Hygienic & Non-Toxic</i>	The foam used in every Rest Assured mattress is made to be completely stable, non-toxic and hygienic.
