DESCRIPTION : Infinity Coil	
FACT	BENEFIT
<i>Dual sided-quality mattress.</i>	Firm, reconstituted foam, high density foam and fibre surround both sides of this mattress to provide better surface comfort and an unmatched luxurious feel, all supported by a stable Infinity Spring system on the inside.
<i>Tempered sleep support system.</i>	The Continuous Interlocking Coil system provides the mattress with stable spinal support giving it a gently firm feel and aids in offering a perfect sleeping posture all night.
<i>Interlocking coils with dual directional response.</i>	The sturdy <i>Interlocking Coils</i> correct your sleeping posture while you sleep as well as absorb motion, ensuring minimal to zero motion transfer to your sleeping partner.
<i>Increased pressure distribution for max comfort.</i>	The more pressure you apply to the Parallel Infinite Coil system the greater the upward response is, reducing pressure points.
<i>150% more working coils</i>	The infinity continuous coil spring unit equates to 150% more working coils than other conventional working units thanks to its unique interlocking design.
<i>Allergy Free</i>	This mattress is 100% odour free and contains zero chemicals that cause regular human allergies such as; <i>sneezing or clogged up sinuses.</i>
